Here are 5 Java on-line textbooks. Our students like Kjell's because searching by topics is easy.

Downey, Alan. How to Think Like a Computer Scientist Java Version
<http://www.greenteapress.com/thinkajava/>

Eck, David. Introduction to Programming Using Java <http://math.hws.edu/javanotes/>

Eckel, Bruce. Thinking in Java, 4th Ed <http://mindview.net/Books/TIJ4>

Jones, William. Java Au Naturel <http://www.cs.ccsu.edu/~jones/book.htm>

Kjell, Bradley. Introduction to Computer Science, Java 5.0 version
